

## NCG CAM Helps RPC M&H Plastics to Diversify their Bottle Mould Range from Personal Care, to now Include Healthcare, Household, and Food & Beverage Packaging

### About the Company

RPC M&H Plastics specialises in the production and decoration of high-quality plastic bottles, jars, flexible tubes and closures, for multiple market sectors including Personal Care, Healthcare, Household, Food, beverage, and Commercial.

RPC M&H Plastics has an extensive range of over 5,000 standard products, and are also able to offer custom moulding of exclusive designs with a low cost of entry. Virtually everything is conducted in-house, on site - from concept design, through toolmaking to production, artwork and decoration. UK manufacturing is based in Beccles, Suffolk, where RPC M&H Plastics employs over 750 people on a custom-built 50-acre site, including 20 toolmakers. RPC M&H Plastics in Beccles is the Headquarters for the RPC M&H Division which consists of 12 sites located in Europe, U.S.A, and Australia, as well as a network of agents worldwide.

### Requirements

RPC M&H Plastics were looking for standalone CAM software that enabled them to quickly and easily modify designs and change between different materials and the speeds and feeds needed for these.

### Results from Purchasing NCG CAM

- ✓ Now have very short manufacturing lead times.
- ✓ The **NCG CAM** Toolsheets are accurate and reliable to work with.
- ✓ The Database Editor makes it very easy to add machine tools or tooling.
- ✓ Macros are good for repeat parts, or making similar parts that need a few changes; just Click or Edit.
- ✓ The **NCG CAM** Customer Support Department provides fantastic support, quickly helping to resolve any issues with post-processors and networking between their 3 x Hurco CNC milling machines.

*“RPC M&H Plastics have been using **NCG CAM** for many years as is it so easy to learn and use, is cost effective and gives a great surface finish. We evaluated moving to an alternative CAM product once, but quickly realised how simple **NCG CAM** is to use in comparison to others, how quickly part files load and also just how much faster calculation times are.”*

*Kurt Knights – Toolroom Manager*
