

Chyuan Lih Industrial Company Advance to CAM Software with Ease, Using NCG CAM

About the Company

Chyuan Lih Industrial Company was established in 1990 in Samutprakarn, Thailand, to produce polystyrene moulds (EPS, EPO), for various packaging solutions. Moulds tools are created and the designs are moulded in-house to customers requests. There are two further sites in China.

Requirements

Chyuan Lih Industrial Company were looking to progress to utilise CAM software for the first time and so were looking for software that was easy to use.

Results from Purchasing NCG CAM

- ✓ Toolpaths, especially the roughing, are reliable and very quick to generate.
- ✓ **NCG CAM** is easy to use and has an intuitive user interface.
- ✓ Training of additional staff is no longer an issue, as **NCG CAM** is so easy to use.

“ We find NCG CAM to be very fast to use and easy to learn.”
