

PRESS RELEASE

NCG CAM Software Partners with Nicolas Correa Machine Tools

NCG CAM Solutions Ltd, UK is pleased to announce their official global Partnership with Nicolás Correa machine tools.

One of Nicolás Correa machine tools key market sectors is to large automotive and aerospace mould tool manufacturers. The fact that **NCG CAM** software specialises in producing toolpaths for the mould, tool and die industry and is also renowned for its speed, ease of use and ability to handle large part files, makes Nicolás Correa and **NCG CAM** perfect partner products.

NCG CAM will be utilised in many of the Nicolás Correa Technical Application Centres and will be used for live machining demonstrations at various global exhibitions.

See **NCG CAM** software in action on a Correa Fox: <https://www.youtube.com/watch?v=0OCFn6dvNcM>

The roll out will begin at the Nicolas Correa Headquarters in Spain and the following:

- Beijing, China, April 17 - CIMT Exhibition (<http://www.cimtshow.com/enindex.jsp>)
- France, April 17 – Industrie Exhibition (<http://www.industrie-expo.com/homepage>)
- Germany, September 17 – Emo Exhibition (<http://www.emo-hannover.de/en/news/>)

About Nicolás Correa Machine Tools

“Passion for service, Know-how and Technology working for you”

Founded in 1947 and dedicated to the design and fabrication of medium and large size milling machines, is the headquarters of the Group NICOLÁS CORREA also formed by 4 other industrial affiliates:

GNC HYPATIA - Design and fabrication of CORREA milling machines of small size, as well as accessories for the tool machine industry such as Automatic Tool Changers.

GNC KUNMING - Fabrication and distribution of milling machines for the local Chinese market.

GNC ELECTRÓNICA - Design and fabrication of electrical assemblies.

GNC CALDERERÍA - Welded structures, sheet parts, and machine guarding systems.

With more than 1000 Double Column and 600 Travelling Column Milling Machines sold around the world, Nicolás Correa is one of the European leaders in milling solutions to answer the demands of the most demanding production tasks, such as manufacturing dies and large moulds, monolithic elements for the aerospace, railway, energy and general mechanical sectors.

Nicolás Correa quotes in the Madrid Stock Exchange since 1989.

Currently, **Nicolás Correa** exports 90% of its production to the main industrialised countries, such as Germany, China, France, Italy, Great Britain, USA, Canada, etc., through a wide network of distributors and subsidiary branches which provide direct, personal contact with the customer.

Thousands of clients around the world entrust their machining requirements to **the widest and most trustworthy** range of **correa** milling machines, which are manufactured in three of their productive plants in Spain.

In addition, **Nicolás Correa** has a strong R&D&I department, which takes part in several avant-garde projects in Spain and Europe, besides the company's own projects.

To contact a reseller, visit <http://www.correa.es/en/> . Alternatively call **Nicolás Correa** + 34 947 288 100, or email correa@correa.es

About NCG CAM Standalone 3D HSM CAM Software

NCG CAM HSM CAM software is an easy to use stand-alone CAM system that integrates with existing CAD and CAM systems.

NCG CAM boasts many innovative features. It is suitable for all types of forms, creating an optimised, smooth cutter motion ideal for 3-D high-speed machining, which will help to extend tool life, minimise wear on the machine tool and producing parts with an excellent surface finish.

NCG CAM has a very user-friendly interface, with a typical learning curve of just 1 day is required to machine a live job. It is perfect for the high-speed machining of moulds, dies, prototypes and precision surface machining.

Features:

- Very user friendly interface – making it suitable for even occasional users
- **NCG CAM** offers many advanced 3D machining routines, rest roughing & 3 + 2 capabilities for all toolpaths, a simultaneous 5-axis add-on module is available
- Fast and efficient roughing strategies, including core roughing and adaptive clearance
- Comprehensive drilling routines – includes automatic hole detection and / or user defined holes
- All machining routines are fully gouge protected for both the cutter and the tool holder
- Rest area option for finishing strategies to minimise any air cutting
- Available as both 32-bit & 64-bit versions (both are multi-threaded)

Key Benefits:

- Stand-alone CAM software that is compatible with **ANY** other CAD package
- Extremely easy to use with just 1 day's training required to machine a live job
- Ideal for shop-floor programming
- Gouge protection for cutters and holders
- All post-processors are written in-house
- Powerful 3D machining
- Toolpaths optimised for HSM machining
 - Increased efficiency
 - Reduced wear on machine
 - Extended tooling life
- Saves time and money!

A demonstration version of the **NCG CAM** software, is available to download -

<http://www.ncgcam.com/demorequest.html> . The demonstration version of **NCG CAM** has unlimited usage and while there are restrictions to the machining output, it can also be used in its basic form as a **FREE** .iges viewer.

About NCG CAM Solutions Ltd

Established in Cambridge, UK, **NCG CAM Solutions Ltd** provides CAM software solutions, offering all the tools needed to manufacture prototypes, models, moulds, dies, patterns and finished products. Our specialist area is 3D HSM CAM with our product **NCG CAM**.

All our staff have a wealth of CAM experience, having worked in the CAD/CAM and engineering industry for many years. In particular, every member of our support team has worked on the shop-floor using CAM software on live jobs, enabling us to provide an excellent back up and support service for the software.

Established in June 2009, NCG CAM Solutions Ltd has a rapidly growing global reseller base, with resellers for NCG CAM across the globe. To locate your nearest reseller see - <http://www.ncgcam.com/resellers.html> .

To contact a reseller or to download the demonstration version of **NCG CAM**, visit www.ncgcam.com .

Alternatively contact Estelle Dunsmuir for more information – estelle@ncgcam.com or call +44 (0)1223 236408 / +44 (0)1353 699840.
